PROFESSIONAL SUMMARY

Computer Engineering student specializing in IoT and Cyber Security, with a Diploma in Computer Engineering (GTU, CGPA 8.17/10), a six-week front-end development internship, and project experience across Python, web development, and networking. Interested in software development, web development, AI applications, cybersecurity, and networking internships.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, PHP, SQL; basic C, C++, Java; working knowledge of TypeScript

Web Development: HTML5, CSS3, Bootstrap, React, Node.js, Tailwind CSS, REST APIs, Supabase; working knowledge of Next.js; basic Express.js

AI Tools & Libraries: Basic LangChain, LangGraph, Mistral AI, Groq API / Llama models; working knowledge of Hugging Face embeddings and ChromaDB

Cybersecurity & Networking: Wireshark, OpenVAS, Cisco Packet Tracer, network traffic analysis; working knowledge of Kali Linux, Nmap, Burp Suite, Metasploit, Linux commands

Developer Tools: Git, GitHub, Docker, VS Code; working knowledge of Figma; basic Adobe Photoshop

INTERNSHIP EXPERIENCE

Front-End Development Intern | Tatva Tech

June–August 2024 · Six-week internship

- Worked on web pages using HTML and CSS.
- Used Bootstrap for responsive layouts and created or modified website UI components.

SELECTED PROJECTS

Network Log Analyzer | *Python, Tkinter*
Python desktop project for working with network log data. Additional features should be included only after verifying the implementation.

Password Strength Checker | *Stack to confirm*
Completed project reported by the user; implementation details and stack need confirmation.

CAR SPY — Dodge Car Information Website | *Stack to confirm*
Website project reported by the user; features and stack need confirmation.

College Internship Board | *Stack/status to confirm*
Concept: a platform for students to view internship opportunities, apply, and organize internship information. Confirm implemented features before claiming them.

Network Traffic Live Monitoring | *Tools/data source to confirm*
Project reported by the user; confirm whether monitoring uses live or simulated data and identify the tools used.

Port Scanner / Packet Loss Detector | *Project scope to confirm*
Project reported by the user; confirm whether this is one combined project or two separate projects.

EDUCATION

B.E. Computer Engineering (IoT & Cyber Security)

Shree Dhanvantary College of Engineering and Technology · Gujarat Technological University (GTU) | Semester 5 · Expected graduation: 2028

Diploma in Computer Engineering

Gujarat Technological University (GTU) | Completed 2025 · CGPA: 8.17/10

Class 10

Shree R.V.G. Vidhyamandir, Ugamedi · Gujarat Board | Reported result: 63.45 PR

HACKATHONS & TECHNICAL ACTIVITIES

GTU Internal Smart India Hackathon 2025: Reported team selection for next internal round; confirm official wording.
Smart India Hackathon 2026: Participation/submission reported; exact problem statement and outcome not verified.
MyBharat Hackathon: Participation/submission reported; project and outcome not verified.
AssemblyAI Voice Agent Hackathon: Participation reported; project and outcome not verified.
IBM Bob 2.0 Hackathon: Participation reported; project and outcome not verified.
Vultr: Agent Rush Hackathon: Participation reported; project and outcome not verified.
CTRL FREAK 2026: Participation reported; project and outcome not verified.

CERTIFICATIONS & LEADERSHIP

- Python certificate
- Tatva Tech front-end development internship certificate
- GTU SIH certificate (exact title to confirm)
- VaultofCodes Ethical Hacking & Cybersecurity Workshop certificate
- Hackathon participation certificates (exact titles and dates to verify)
- Team ARCLIGHT — team-lead role reported; confirm event context and dates.
- Project development across web applications, Python utilities, and networking-related tools.
- Participation in technical competitions and hackathons.
